PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science graduate (2026) seeking a Data Analyst role. Hands-on experience with Python, SQL (MySQL), data analysis, and real-time computer vision using OpenCV. Experienced in data processing, problem-solving, and developing practical AI-based projects, with a strong interest in transforming data into meaningful insights. Quick learner with a practical approach to learning and currently strengthening Power BI and DAX skills.

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, Microsoft Excel, Exploratory Data Analysis (EDA), Data Cleaning
Databases & Programming: SQL (MySQL Workbench), Python, C++, HTML, CSS, Database Design
Machine Learning & Libraries: OpenCV, NumPy, Pandas, Computer Vision, Multi-Object Tracking, Generative AI Foundations
Tools & Platforms: Git, GitHub, Streamlit
Core Competencies: Analytical Thinking, Quantitative Problem-Solving, Team Collaboration, Technical Documentation, Time Management

WORK EXPERIENCE

Defense Research and Development Organisation (DRDO) | **Real-Time Multi-Object Tracking Intern** Jun 2025 – Jul 2025

- Engineered automated computer vision pipelines in Python and OpenCV for continuous multi-object detection and tracking. Implemented
- greedy search tracking algorithms, systematically balancing computational efficiency against precision in crowded scenes. Enhanced
- tracking accuracy by 15% over baseline benchmark models through targeted feature extraction and algorithmic optimization.

Cyber Security & Ethical Hacking Intern | **Security Assessment Intern** Jan 2025 – Mar 2025

- Conducted vulnerability assessments and network analysis to identify potential security weaknesses.
- Used Nmap and Wireshark for network scanning, traffic analysis, and security assessment.
- Analyzed potential security threats and supported endpoint security and risk mitigation activities.

TECHNICAL PROJECTS

Advanced ATS Score Analysis & Resume Phrasing System | **Python, Data Analytics, NLP | GitHub** Jan 2024 – May 2025

- Engineered an analytical resume evaluation engine using Python text processing to measure candidate-job description alignment.
- Constructed data parsing algorithms to quantify keyword density, section organization, and phrasing strength across profiles. Automated
- score generation and personalized syntax recommendations to enhance document parsing in Applicant Tracking Systems.

Smart Attendance Management System | **Python, MySQL, Arduino | GitHub** Jul 2024 – Oct 2024

- Built an integrated IoT tracking system utilizing an RFID sensor module, Arduino microcontroller, and Python backend.
- Configured a structured MySQL relational database to record, timestamp, and query student attendance data automatically.
- Eliminated manual tracking errors and streamlined real-time data logging for institutional reporting.

Greedy Algorithm for Real-Time Multi-Object Tracking | **Python, OpenCV, Computer Vision | GitHub** Jun 2025 – Jul 2025

- Implemented real-time multi-object tracking using Python, OpenCV, and a greedy assignment algorithm.
- Processed video streams to detect and track multiple objects in real time.
- Evaluated tracking performance in crowded scenes and analyzed accuracy trade-offs compared with optimal tracking methods.

Multi-Tasking Robot with Voice Command Execution | **Python, Automation | GitHub** Jan 2026 – May 2026

- Programmed voice command parsing workflows in Python to translate voice inputs into automated robotic execution tasks.

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence & Data Science, Priyadarshini College of Engineering, Nagpur University | Passing Year: 2026

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Generative AI Professional
- Design Fundamentals with AI – Adobe
- Digital Productivity – NIIT Foundation (UNICEF / P2E) DRDO
- Internship Research Certificate
- Skilldunia Technical Certification

ACHIEVEMENTS & ACTIVITIES

- Elite Hack 1.0 National Hackathon
- Participant, Shaastra 2026 Technical Festival, IIT Madras
- Participant, National AI/ML Hackathon by AVEVA, IIT Hyderabad
- Selected Intern, Oracle ERP | YuvaIntern (NSDC)
